MYKOLA MASLAKAI

FRONTEND DEVELOPER

| +38(099)-262-02-29 | [Linkedin] | [nikolaymaslakay@gmail.com] | Ukraine, Khmelnytskyi |

SUMMARY

As a Front-end developer with over a year of experience, I have worked on both team-based and individual projects, showcasing my versatility and collaboration skills. I am detail-oriented with strong analytical abilities, allowing me to quickly learn new information and technologies. In addition to coding, I am committed to continuous self-improvement by learning new technologies and expanding my skill set.

PROFESSIONAL SKILLS

JAVASCRIPT, TYPESCRIPT, REACT, NEXTJS, NODE, REACT-NATIVE, REDUX, VITE, WEBPACK, REST API, EXPRESS, GIT, DOCKER, MONGODB, POSTGRESQL, HTML, CSS, SCSS, TAILWIND, ADAPTIVE DESIGN, MATERIAL UI

LANGUAGES

ENGLISH - B1,   UKRAINE - NATIVE,   RUSSIAN - C2

WORK EXPERIENCE

FRONT-END DEVELOPER   (2024 - Present)
Team Challenge

Worked on the development of a marketplace that allows users to buy and sell goods. The project included creating user interfaces, setting up the backend, integrating payment systems, and ensuring data security. Created an intuitive and user-friendly interface using React and Tailwind CSS. Solved the issue of slow page load times by optimizing images and implementing lazy loading.

FRONT-END DEVELOPER   (2023 - 2024)
Freelancehunt(Freelance)

I have successfully worked on diverse projects utilizing React, Next.js, JavaScript (TypeScript), and Node.js. My role involved developing dynamic and scalable web applications, managing client interactions to understand and meet their needs, and ensuring timely delivery of high-quality solutions. I excel in collaborating with clients to provide technical expertise, solve problems effectively, and maintain a user-focused approach throughout the projects lifecycle.

PROJECTS

PEACH (VOLUNTEER TEAM PROJECT)   [DEMO]
TS, JS, React, ReduxToolkit, Tailwind CSS, Vite, Node.js,

Peach is an online platform designed to facilitate the buying and selling of goods among users. It provides a secure environment for sellers and buyers, allowing them to easily interact and conduct transactions. The goal of Peach is to create a convenient and reliable platform where users can exchange goods, explore new offers, and make purchases with maximum confidence.

SVIY (VOLUNTEER TEAM PROJECT)   [DEMO]
TS, JS, React, Next.js, ReduxToolkit, Tailwind CSS

Marketplace-Sviy is an online platform designed to support Ukrainian manufacturers who want to introduce and sell their products through the Internet. In this market, manufacturers can post information about their products, including photographs, descriptions and prices. In addition, the platform provides safe and convenient payment and delivery methods so that buyers can make purchases with confidence and comfort.
